

Robert Potra

BESc. Mechatronic Systems Engineering
Western University

15 months as Visiting Scholar at
Macquarie University

Formula SAE

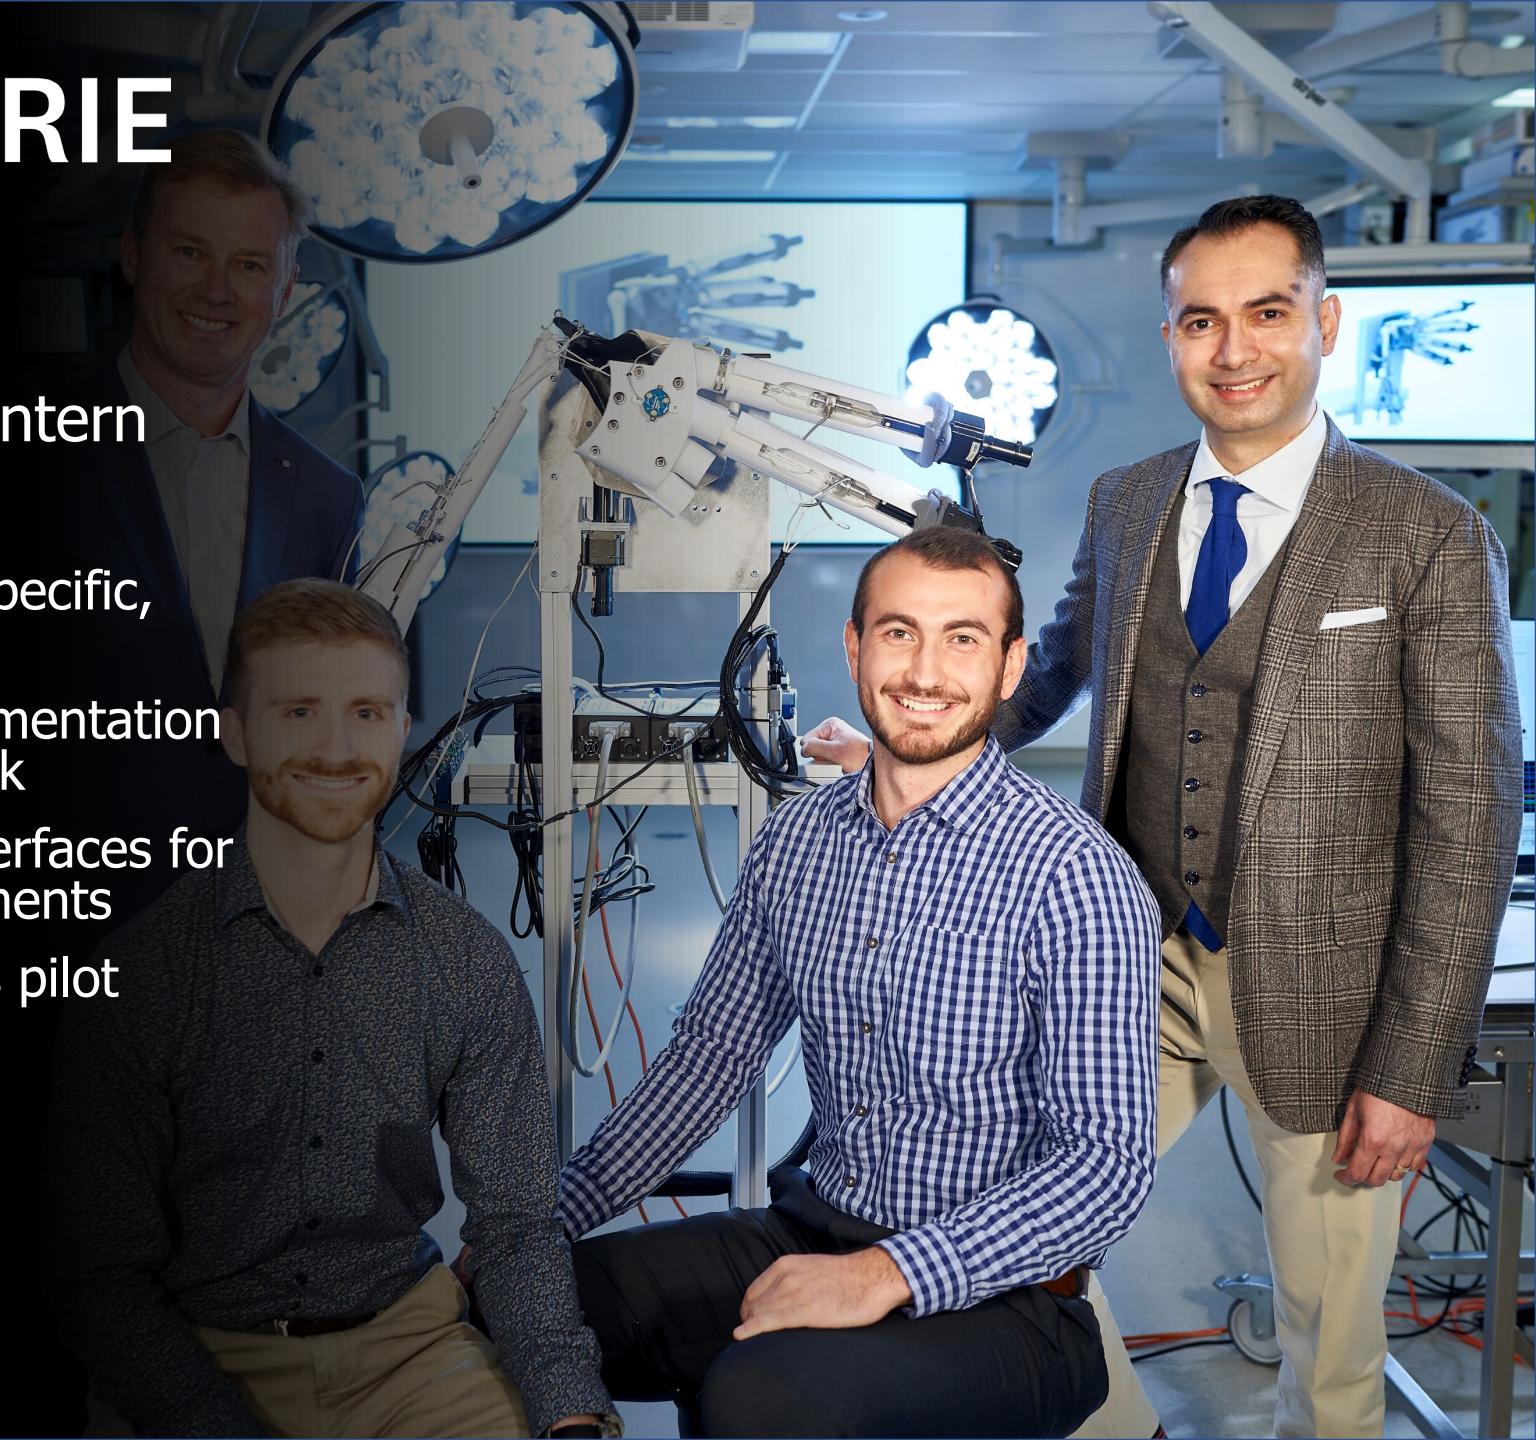

MACQUARIE

University

SYDNEY · AUSTRALIA

Visiting Scholar Engineering Intern

- Mechanical design of specimen-specific, parametric shoulder simulator
- Control system design and implementation with kinematic and force feedback
- Developed software and user-interfaces for conducting biomechanics experiments
- Conducted cadaver biomechanics pilot experiments
- [Shoulder Simulator Video](#)
- [Shoulder Simulator Article](#)

FRONTIER

THE MAGAZINE OF MACQUARIE UNIVERSITY HOSPITAL | SPRING 2020

Evolution of the most advanced cadaveric shoulder simulator

MQ HEALTH RESEARCHERS HAVE SUCCESSFULLY CONDUCTED THE FIRST CADAVERIC PILOT TESTS – MADE POSSIBLE THROUGH A MULTI-PARTNER INTERNATIONAL COLLABORATION AND THE UNIVERSITY'S WORLD-CLASS CADAVERIC SURGICAL SKILLS CENTRE.

Weight loss patients
access much-needed
surgery

Research Assistant

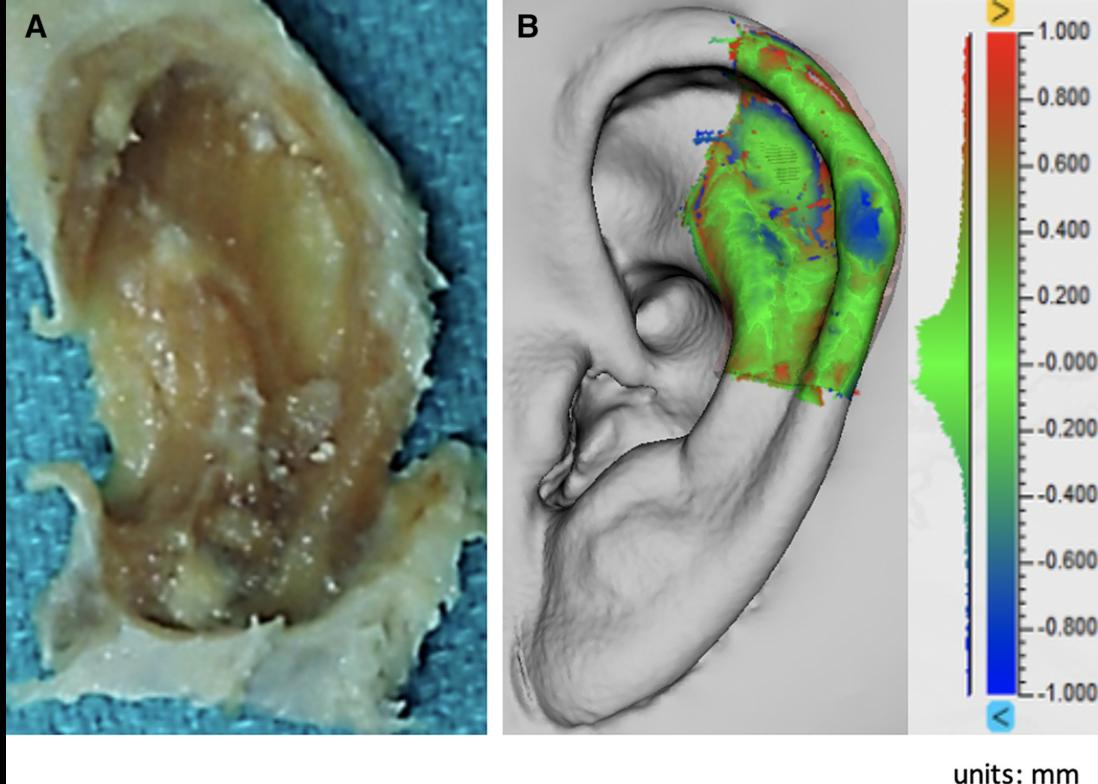

- Conducted cadaver studies with surgical fellows
- Performed statistical analyses to compute repeated measures ANOVA and reliability measures
- 3D scanned patients to reverse engineer splints for chronic conditions
- 3D printed and post-processed splints for patients
- [Interactive splint render](#)

Ear Reconstruction

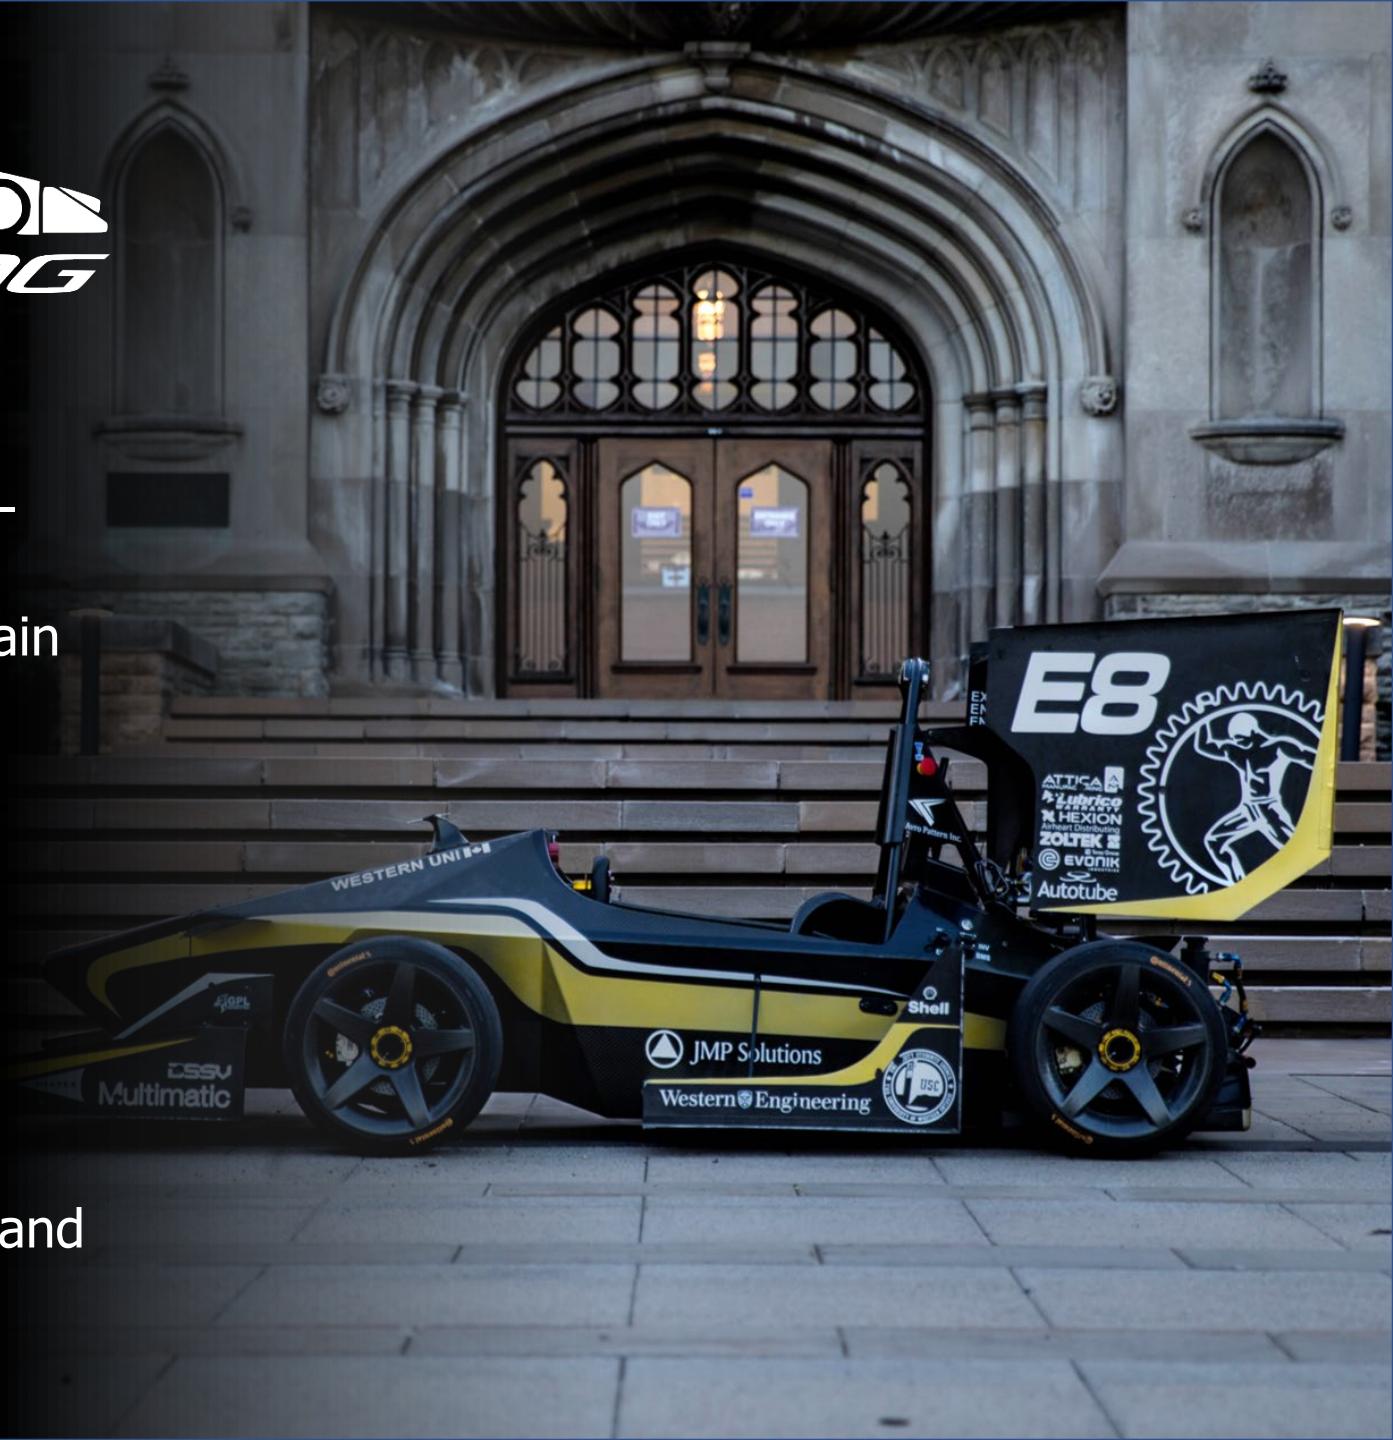

3D Printed Splint

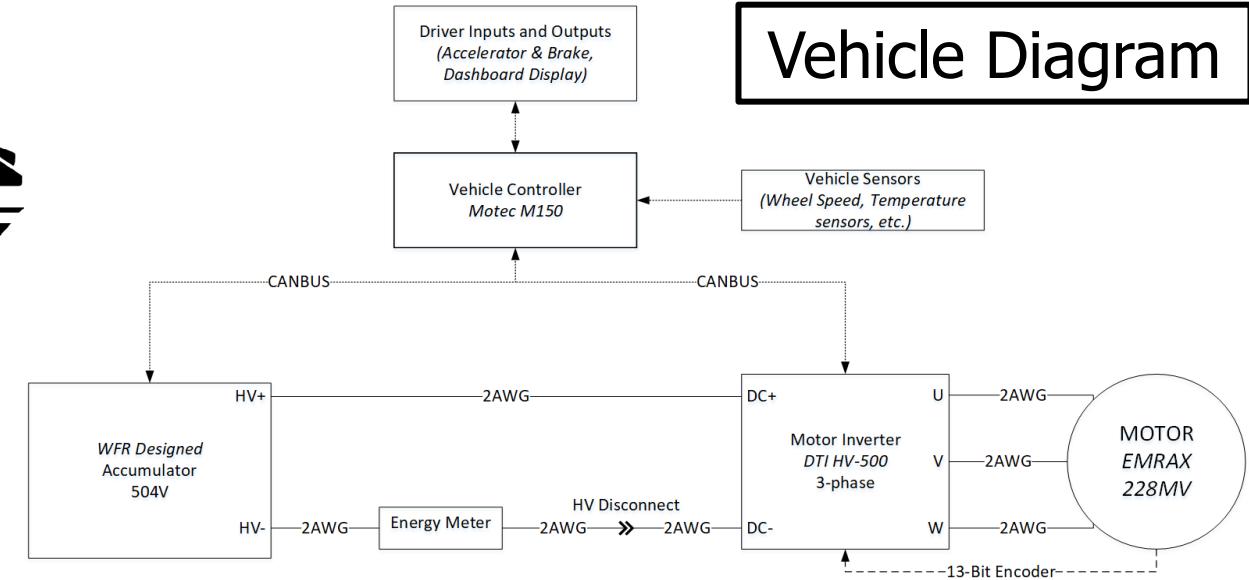

Low Voltage Lead

- Designed low voltage systems for 2018-2019 and 2020-2021 seasons
- Final year project of electrified powertrain using an Emrax 228 motor, DTI HV-500 inverter, and 500 V Lithium-ion battery pack with custom battery management system
- Designed and manufactured wire harnesses with improvements in modularity, reliability, and design documentation
- Mentored junior team members
- Integrated sensors using CAN protocol and MoTeC M150 engine control unit

Accumulator Diagram

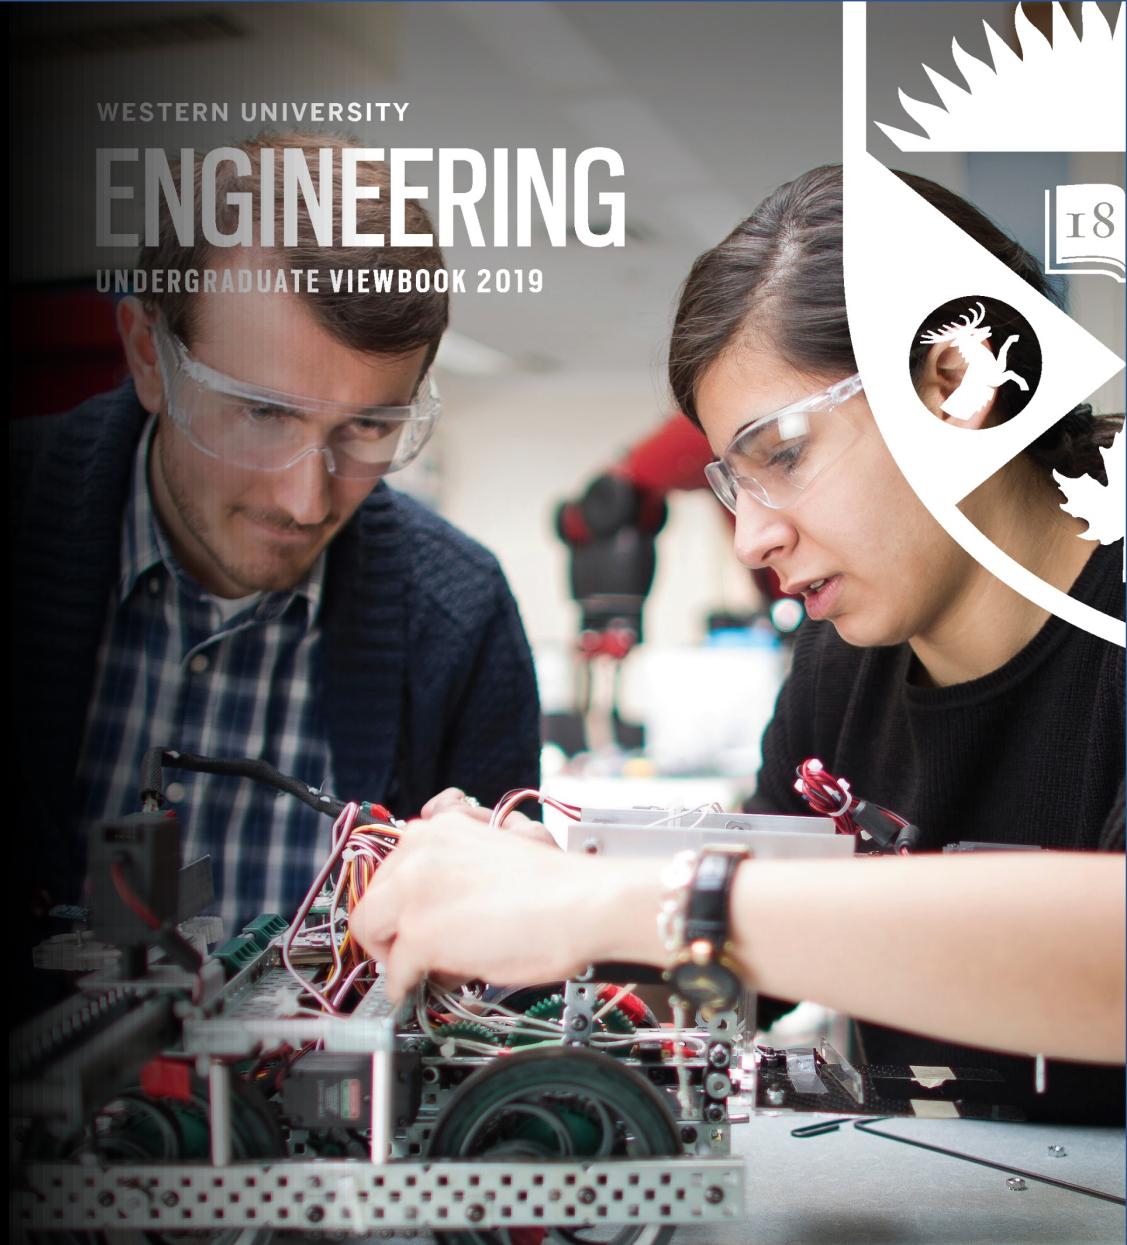

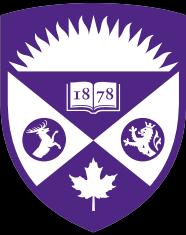

Wire Harness Manufacturing

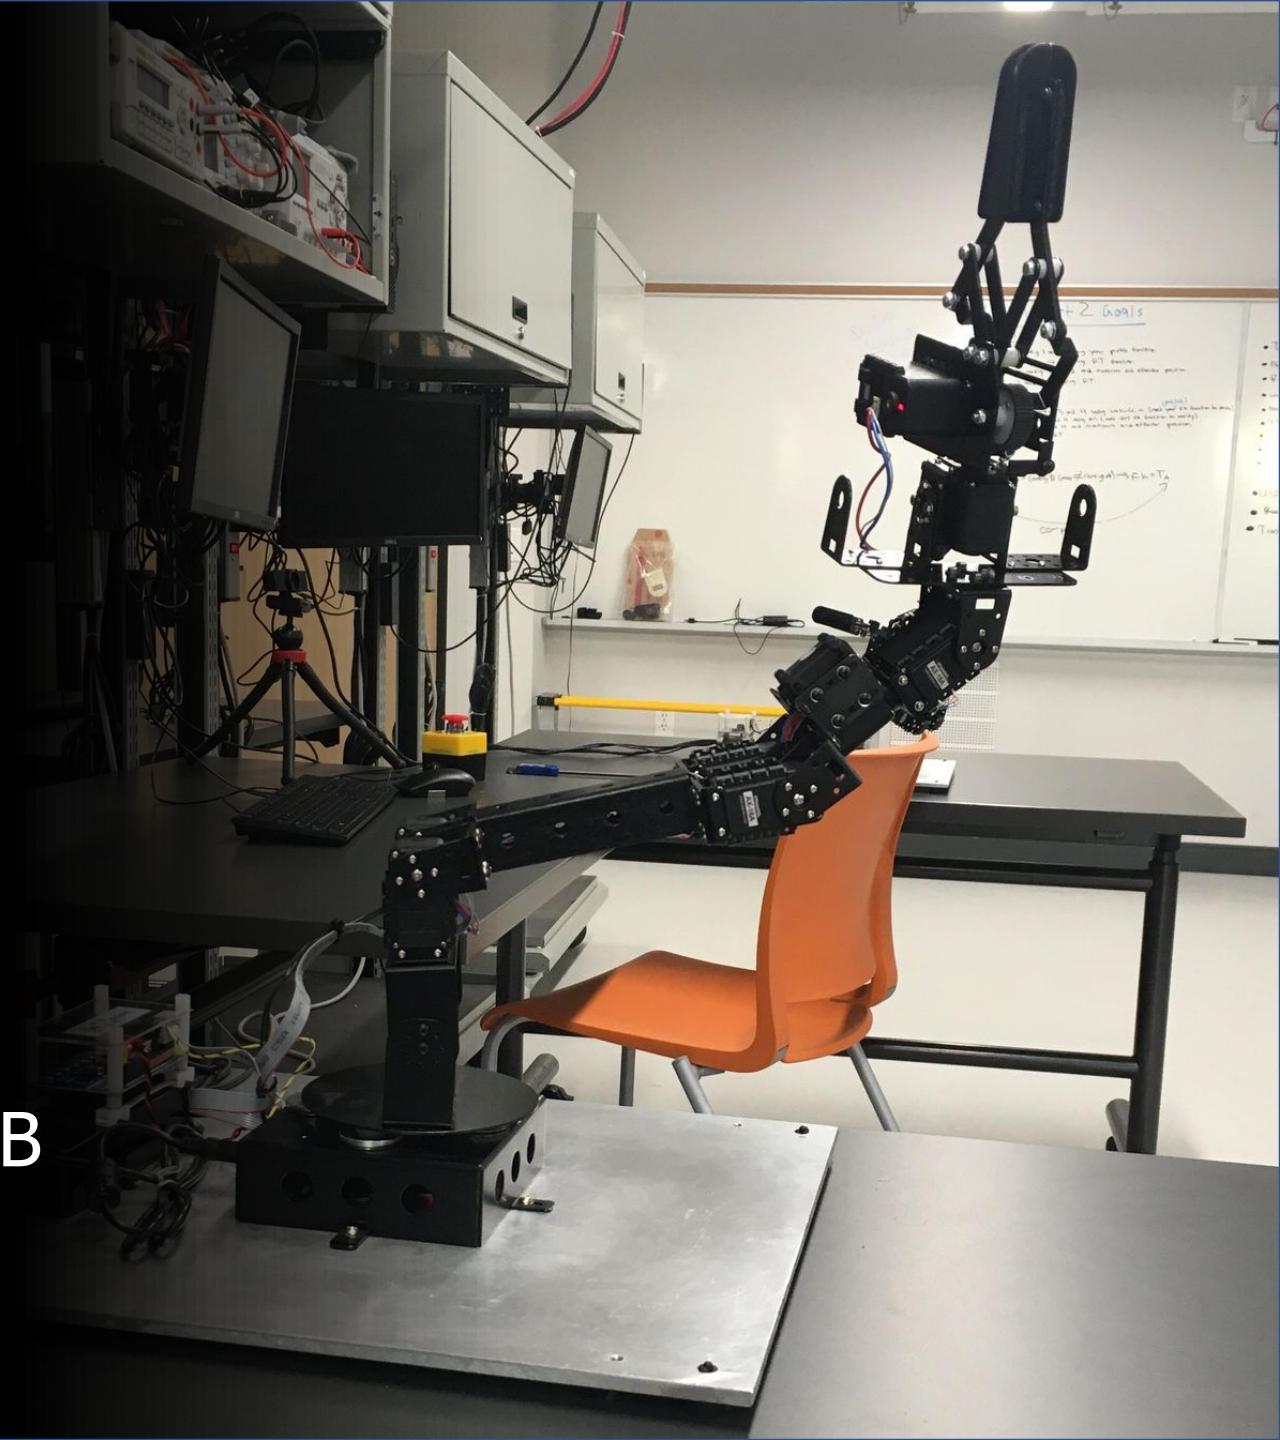

- BSc. Mechatronic Systems
- Dean's Honour Roll
- Certificate of Leadership and Innovation

Robotic Manipulators

- Serial manipulator kinematics and dynamics
- Path planning with via points, attractive fields, and repulsive fields
- Implemented gradient descent algorithm and control in MATLAB

Technical Skills

Computer-Aided Design

- SolidWorks
- Artec Studio
- Geomagic Wrap
- Autodesk EAGLE

Programming

- MATLAB
- LabVIEW
- Python
- Simulink

Prototyping

- Arduino
- Soldering
- 3D Printing
- 3D Scanning
- Wire Harness Construction

Biomechanics and Medical Imaging

- Materialise Mimics
- Optotrak Certus
- The MotionMonitor

Creative Design

- Microsoft Office
- Photoshop
- PhotoView 360
- Keyshot
- LaTeX

Personal Projects

LED Cube

- Serial Peripheral Interface (SPI)
- Daisy-chained 74HC595 shift registers to control 8x8x8 cube of LEDs
- [YouTube Video](#)
